

TOLCOX ORAL SOLUTION

25mg/ml

Ingredient(s):

Each ml contains :
Toltrazuril 25mg

Pharmacodynamics

Anticoccidial, active against all intracellular stages but the mode of action is unknown.

Pharmacokinetics

In poultry toltrazuril is absorbed at a rate of at least 50%. The highest equivalent concentrations are found in liver. The active substance is rapidly metabolised in poultry. The main metabolite is characterised as a sulfone-derivative. About 1 week after the last dose this metabolite represents by far the most relevant residue in the animal.

Indication

For the treatment of coccidiosis in Broilers and Broilers Breeders. Effective against *Eimeria acervulina*, *E. brunette*, *E. maxima*, *E. necatrix*, *E. tenella*, *E. mitis*.

Target Species

Chicken (Broilers and Broilers Breeders).

Recommended Dose

The recommended dose rate is 7 mg Toltrazuril per kg bodyweight per day given for 2 consecutive days. This corresponds to : 28 ml Tolcox Oral Solution 25mg/ml (equivalent to 700 mg toltrazuril) per 100 kg of bodyweight per day for 2 consecutive days. Tolcox Oral Solution 25mg/ml is mixed in the drinking water before use. Gentle mixing is required.

As a guide for usage this is normally equivalent to 25 ppm (equivalent to 1 ml Tolcox Oral Solution 25mg/ml) per litre of drinking water for continuous medication over 48 hours, or to 75 ppm (equivalent to 3 ml Tolcox Oral Solution 25mg/ml) per litre of drinking water given for 8 hours per day, on 2 consecutive days.

Mode of Administration

Oral administration via drinking water.

Contraindication

None.

Warning and Precautions

Tolcox Oral Solution 25mg/ml does not interfere with the development of immunity against coccidiosis. As with all anticoccidials, prolonged use may result in the development of resistant strains.

i. Special precautions for use in animals

Dilutions more concentrated than 1:1,000 (1 ml Tolcox Oral Solution 25mg/ml to 1 litre drinking water) may result in precipitation. Predilution is not recommended.

ii. Special precautions to be taken by the person administering the medicinal product to animals

Tolcox Oral Solution 25mg/ml is an alkaline solution.
Wear synthetic rubber gloves when handling the product.
Wash any splashes from skin or eyes immediately with water.
Wash hands and exposed skin after use.
Do not eat, drink or smoke whilst using the product.

Interaction with Other Medicaments

Not known.

Pregnancy and Lactation

Not known.

Side Effects

Not known.

Environmental Property

Only make up sufficient drinking water for requirements.
Wash out empty container with water 3 times when medicating birds and add washings to drinking water.
Store litter from treated houses as long as possible. However, it should only be stored where there is no risk of polluting surface water or groundwater.
Do not apply to agricultural land at a rate greater than 1.5 tonnes/hectare/year.
If spreading within an Nitrogen Vulnerable Zone(NVZ) ensure that the NVZ action programme rules are complied with.
The principle metabolite of toltrazuril is persistent and mobile in groundwater.

Symptoms and Treatment of Overdose

A three - five fold overdosage is readily tolerated without any symptoms. If the recommended dose is exceeded beyond 3 - 5 times there is a decrease in water intake.

Storage Condition

Store at temperature below 30°C. Protect from direct sunlight and water.

Shelf Life

2 years.

Used within 24 hours after reconstitution

Shelf Life after first opening: 2 Years.

Withdrawal Periods

Meat: 18 days

Do not use in birds producing eggs for human consumption.

Maximum Residual Limit (MRL)

Chicken

Muscle: 100 µg/kg

Skin + fat: 200 µg/kg

Liver: 600 µg/kg

Kidney: 400 µg/kg

Product Description

A clear and colorless to slightly yellowish solution.

Plastic Bottle 1 L
