

93mm

REXOM™ NEOMYCIN CREAM 0.5%

Composition :

Contains :

Neomycin Sulphate BP	0.5% w/w
Methyl Paraben	0.15% w/w
Propyl Paraben	0.08% w/w

Product Description :

White to off-white colour, smooth, homogenous cream.

Pharmacodynamics :

Neomycin is readily absorbed from large denuded, burned or granulating areas and may cause nephrotoxicity and moderate to severe ototoxicity especially if given concurrently. The use of topical antibacterials may lead to skin sensitisation, resulting in hypersensitivity reactions with subsequent topical or systemic use of the medication.

Pharmacokinetics :

Neomycin is not absorbed through the intact skin. However, it is readily absorbed from large denuded, burned, or granulating areas.

Indications :

For the treatment of topical infections such as impetigo, boils, caused by neomycin-sensitive organisms.

Recommended Dosage :

Apply a thin layer to the affected skin area one to three times daily.

Mode of Administration :

Topical.

Contraindications :

Prior sensitization to any of the ingredients.

Warning and Precautions :

Potential hazard of nephrotoxicity and ototoxicity. Prolong use or use of large amount should be avoided in the treatment of skin infections following extensive burns, trophic ulceration and other conditions where absorption of Neomycin is possible.

Adverse Effects :

Hypersensitivity reaction due to Neomycin include itching, rashes, swelling or other sign of irritation not present before therapy.

Storage Conditions :

Keep container tightly closed. Store below 30°C. Protect from freezing, heat and direct light.

Packaging Available :

15 gm tube, 15 gm x 25 tubes and 15 gm x 50 tubes.
30 gm tube and 30 gm x 12 tubes (For export and KKM only).
20 gm tub and 20 gm x 10 tubs.

Registration Number :

MAL19860058AZ
