

ECOZOL CREAM

Description: White colour cream

Contents

Econazole Nitrate 1% w/w

Chlorocresol 0.1% w/w

Indications

For treatment of cutaneous candidiasis, tinea corporis, tinea cruris, tinea pedis and tinea versicolor.

Pharmacology

Econazole, a fungicide, damages fungal cell membrane and alters its permeability resulting in loss of essential intracellular elements. It also inhibits biosynthesis of triglycerides and phospholipids by fungi and oxidative and peroxidative enzyme activity, resulting in deterioration of subcellular organelles and cellular necrosis.

Adverse effects

Burning, itching, stinging, and redness may occur occasionally.

Precautions

- Avoid contact with the eyes.
- Do not apply occlusive dressing over this medication unless directed to do so by physician.
- Check with physician if no improvement after 2 weeks of therapy.

Dosage and administration

Apply sufficient medication to cover affected and surrounding areas, and rubbing in gently two times a day, morning and evening.

Medication to be continued for full course of treatment.

Note: To reduce the possibility of recurrence, fungal infections should be treated for at least 2 weeks.

Storage

: Keep container tightly closed.

Store in a cool, dry place below 30°C. Protect from light.

Presentation / Packing: Cream 1% x 15gm; 500gm (EXPORT)
