

GATALKO CREAM

MAL19910633X

DESCRIPTION:

CREAM

Colour : White
Fragrance : Menthol

CONTENT:

Menthol4% w/w
Camphor6% w/w
Preservative:
Chlorocresol 0.1% w/w

PHARMACODYNAMICS:

Camphor

Camphor is a stimulant, rubefacient, antipruritic and feebly antiseptic. When in combination with Menthol, it becomes ideal for neuralgia and other painful areas.

Menthol

Menthol dilates the blood vessels causing a sensation of coldness, followed by an analgesic effect. Menthol also acts as a penetration enhancer, increasing the penetration of drugs when applied on the skin, to give a faster onset of action.

PHARMACOKINETICS:

Camphor

- Camphor is readily absorbed from all administration sites. Camphor is well absorbed after dermal exposure.
- It is hydroxylated in the liver to yield hydroxycamphor metabolites which are then conjugated with Glucuronic Acid and excreted in the urine.
- Camphor crosses the placenta.

Menthol

- After absorption, Menthol is excreted in the urine and bile as a glucuronide.

INDICATION:

Soothes and relieves itching from mosquito and insect bites, muscles aches and joint pain.

APPLICATION:

The preparation should be applied sparingly on the skin, with slight rubbing, 2 to 3 times a day when necessary. It should not be applied to blistered, raw or oozing areas of skin, near to the eyes and is not recommended for the face and genitalia.

CONTRAINDICATION:

The preparation is not recommended to be used on open wounds and in patients hypersensitive to the medications.

WARNING AND PRECAUTIONS:

This product is contraindicated in children below 2 years of age. Caution must be exercised when older children are treated.

It is dangerous to place any camphor containing product into the nostril of children. A small amount applied this way cause immediate collapse.

STATEMENT ON USAGE DURING PREGNANCY AND LACTATION

Safety for use in pregnancy has not been established; therefore the potential benefit of the product should be weighed against the possible risks to the mother and child.

SIDE EFFECTS/ADVERSE REACTIONS:

With the recommended directions, side effects or adverse reactions are unlikely to occur.

PACKING/PACK SIZES:

Aluminium tubes of 10 g, 12 g and 15 g

**JAUHI UBAT DARIPADA KANAK-KANAK
KEEP OUT OF REACH OF CHILDREN
FOR EXTERNAL USE ONLY**
