

CETRIX CREAM 0.5%

Description: White colour cream.

Content:

Cetrimide 0.5% w/w

Indication:

For treatment of wounds, burns, and other minor skin injuries.

Pharmacology:

Cetrimide, a quaternary ammonium compound, is a relatively non-toxic antiseptic. It is active against Gram-positive organisms but is less effective against Gram-negative organisms (specially *Pseudomonas*).

Adverse effects:

It does not generally cause irritation, but some patients become hypersensitive to cetrimide after repeated applications.

Precautions:

Avoid contact with eyes. It should not be used in body cavities.

Contraindications:

Not recommended for patients who are hypersensitive to cetrimide after repeated applications.

Dosage and administration:

Apply to the affected area as required, or as directed by physician.

Storage : Keep container tightly closed. Keep out of reach of children.
Store in a cool, dry place below 30°C. Protect from light.

Presentation/Packing : Cream 0.5% w/w x 15gm

Shelf life : 3 years.
