

PRIME'S ACRIFLAVINE CREAM 0.1%

Description: Yellow coloured cream.

PRIME'S ACRIFLAVINE SOLUTION 0.4%

Description: Dark yellow solution.

Contents

Prime's Acriflavine Cream	— Neutral Acriflavine	0.1% w/w
	Chlorocresol	0.1% w/w
Prime's Acriflavine Solution	— Acriflavine HCl	0.4% w/v
	Sodium Benzoate	0.1% w/v

Indications

For treatment of infected wounds, cuts or burns, and for skin disinfections.

Pharmacology

Acriflavine, an acridine derivative, is bacteriostatic against many Gram-positive bacteria but less effective against Gram-negative organisms. Its activity is not reduced by tissue fluids.

Adverse Effects

No adverse effects caused by acriflavine have been reported; However, it may cause photosensitivity in some patients.

Precaution

Prolonged treatment may delay healing.
