

PRIME - B12 TABLET 50mcg

Description:

Pink, round with top-scored tablet. Diameter = 6.00mm

Contents

Each tablet contains : Cyanocobalamin 50mcg

Pharmacology

Cyanocobalamin acts as a coenzyme for various metabolic functions, including fat and carbohydrate metabolism and protein synthesis. It is necessary for growth, cell replication, hematopoiesis and nucleoprotein and myelin synthesis, largely due to its effects on metabolism of methionine, folic acid and malonic acid.

Indications:

For the treatment of Vitamin B12 deficiency of dietary origin.

Contraindications:

Leber's disease because optic nerve atrophy has occurred rapidly after administration.

Precaution:

Use with caution in patients with history of gout (increases nucleic acid degradation) and heart disease (increased blood volume could lead to pulmonary edema and congestive heart failure.)

Recommended dosage, Dosage schedule and Route of Administration:

Oral, 50mcg to 150mcg daily or according to the physician.

Storage : Keep container tightly closed. Store in a cool, dry place, below 30°C.
Protect from light.

Presentation / Packing : Tablet 50mcg x 90's

Shelf life : 3 years

Manufactured & : **PRIME PHARMACEUTICAL SDN. BHD.**
