# Xepa Hydrogen Peroxide

## Solution 6% (20 Volume)

### Composition

Contains Hydrogen Peroxide 6 % equivalent to 20 volume of oxygen.  
Benzoic Acid 0.02% w/v as preservative.

### Uses

Hydrogen Peroxide solution is used as first aid for minor cuts, wounds and abrasions, to remove dressing from wounds and as mouthwash in the treatment of acute stomatitis and as deodorant gargle. It is also used to remove earwax.

### Directions

First Aid:

Dilute 1 part Hydrogen Peroxide with 1 part water (3%), apply diluted solution onto the affected area. Allow oxygen to escape and then dress with bandage or adhesive plaster.

To remove dressing from wounds:

Soak the dressing thoroughly with diluted solution (3%) and leave for a few minutes before removal.

Ear wax removal:

Dilute 1 part Hydrogen Peroxide with 3 parts water (1.5%) and instill into the ear. Leave for a few minutes.

Mouthwash:

Add 1 tablespoon Hydrogen Peroxide to half a tumbler of water and use as necessary.

### Precautions

Avoid use in abscesses. Do not dress with bandage or adhesive plaster immediately after the application.

### Side Effects

Hydrogen peroxide solution is usually well tolerated.

### Shelf-life

The expiry date is indicated on the packaging.

### Presentation

Clear, colourless solution in plastic bottles of 500 ml.

### Storage

Store below 30°C.
