BioMarin

CLO01-0

Description

Oval, transparent soft gelatin capsule filled with yellow oily liquid

Composition

Cod Liver Oil 240 mg per capsule (containing 600 IU Vitamin A and 60 IU Vitamin D)

Actions and Pharmacology

Cod Liver Oil is a rich source of Vitamin D and Vitamin A. It also contains several unsaturated fatty acids which are essential food factors. Vitamin A and D are readily absorbed from the gastrointestinal tract. Vitamin A is excreted in faeces and urine whereas Vitamin D is mainly excreted in bile and only a small amount in urine.

Indications

As a dietary supplement.

Contraindications

Cod Liver Oil should not be used when the following medical problems exist :

- hypercalcaemia
- hypervitaminosis
- osteodystrophy with hyperphosphatemia

Precautions

This medication should be used with caution in pregnancy. Foetal abnormalities, growth retardation and early epiphyseal closure have been reported in children whose mothers took excessive amount of Vitamin A.

Excessive maternal intake in humans has been associated with increased sensitivity of effects of Vitamin D, suppression of parathyroid function or a congenital aortic stenosis in infants.

Main Side/Adverse Effects

There is no data available.

Drug Interactions

Avoid concurrent use with the following drugs :

- Calcium-containing preparation in high doses.
- Cholestyramine, cholestipol, digitalis glycosides.
