

PEPZEN TABLET 5mg

Description:

Flesh colour, round, biconvex and enteric-coated tablet. Diameter = 6.00mm.

Content

Serratiopeptidase 5mg / tablet

Indications

As concomitant therapy for elimination of inflammatory oedema & swelling in disorders such as sinusitis; in inflammation after traumatic injury; and to improve expectoration of sputum for patients with bronchitis & bronchial asthma.

Pharmacology

Serratiopeptidase is a proteolytic enzyme derived from *Serratia* spp. It catalyzes the hydrolysis of peptide linkages, i.e. decomposing abnormal exudates and protein, and promoting the absorption of the decomposed products through the blood and lymphatic vessels, hence, improving the circulation at the inflammatory focus. It also accelerates the elimination of sputum, pus and hematoma by breaking down and liquefying mucous secretion and fibrin clots.

Adverse effects

Gastrointestinal disturbances may occur occasionally.

Precautions

- Caution in patients with blood coagulation disorders.
- Safety for use in pregnancy and lactation has not been established.

Contraindications

Avoid in patients who have shown hypersensitivity to the drug.

Drug interactions

Concurrent use with anticoagulants requires careful observation.

Dosage and administration

Adults : Oral, 1 to 2 tablets three times daily, or as directed.

Children : As directed by physician.

Storage	: Keep container tightly closed. : Store in a cool, dry place, away from light, below 30°C. Keep out of reach of children.
Presentation/Packing	: Tablets 100 x 10's
Shelflife	: 3 years.
Product registration holder & Manufacturer	: Prime Pharmaceutical Sdn. Bhd. 1505, Lorong Perusahaan Utama 1, Taman Perindustrian Bukit Tengah, 14000 Bukit Mertajam, Penang, Malaysia.
