

pharmaniaga®

IDAMAN PHARMA CALAMINE CREAM

DESCRIPTION

Clean, soft, homogenous cream. Colour pink.
Odor: Of perfume.

COMPOSITION

This cream contains:
Calamine : 8% w/w
Zinc Oxide : 3% w/w

Preservative:

Chlorocresol: 0.1% w/w
Phenyl Ethyl Alcohol: 0.407% w/w

PHARMACODYNAMICS

Calamine has mild astringent and antipruritic actions on the skin and is used to relieve the discomfort of dermatitis as it produces a cooling effect and helps to divert attention away from the itching and thus giving relief from skin irritations. Zinc Oxide is applied externally as a mild astringent for the skin. Zinc Oxide has soothing and protective properties and is used in topical preparations for eczema, slight excoriations, wounds and haemorrhoids. It also reflects ultraviolet radiation and can be used as a physical sunscreen.

PHARMACOKINETICS

Absorption:

Calamine and Zinc Oxide are not absorbed through the skin.

INDICATIONS

Indicated for the topical soothing relief of itching, pain, and discomfort due to minor skin irritations, such as those caused by eczemas, insect bites, insect stings, prickly heat, sunburn, napkin rash, cosmetic rashes, pruritis of dry skin including as well as symptomatic relief of itchiness in Chickenpox viral infection.

RECOMMENDED DOSE

Wash and dry affected area before each application.

Apply sparingly to the affected parts and surrounding skin areas twice or three times daily.

Repeated applications may be administered as needed.

*Extremes of temperature, wearing tight fitting nappies or non-breathable clothing such as polyester or nylon can make itching worse.

ROUTE OF ADMINISTRATION

Topical

CONTRAINDICATIONS

Hypersensitivity to the active substance or to any of the excipient.

WARNINGS & PRECAUTIONS

- For external use only.
- Not to be taken
- Avoid contact with the eyes and other mucous membranes such as mouth, nose and genital region.
- Not to be applied to abraded, blistered, raw or oozing areas of the skin.
- Do not use on open wounds or burns.
- Discontinue use if rash, irritation, burning sensation or sensitivity develops occurs.
- If symptoms persist, consult your pharmacist or doctor.
- Keep securely closed when not in use.
- Keep out of the sight and reach of children.
- Instruct patients not to smoke or go near naked flames – risk of severe burns. Fabric (clothing, bedding, dressings etc) that has been in contact with this product burns more easily and is a serious fire hazard.

Washing clothing and bedding may reduce product build-up but not totally remove it.

- This medicine contains Cetostearyl alcohol which may cause local skin reactions (e.g. contact dermatitis).

INTERACTION WITH OTHER MEDICAMENTS

May mask x-ray pictures under certain circumstances.

PREGNANCY & LACTATION

The safety of Calamine and Zinc Oxide during pregnancy and lactation has not been established but use during these periods is not considered to constitute a hazard.

ADVERSE EFFECTS/UNDESIRABLE EFFECTS

Calamine and Zinc Oxide are well-tolerated except for occasional dryness following excessive use.

Occasional hypersensitivity reactions such as itchiness in sensitive individuals

SYMPTOMS & TREATMENT OF OVERDOSEAGE

Overdose arising from the topical application is extremely remote. As the ingredients are inert and very poorly absorbed, effects if any arising from accidental overdose (orally) is unlikely to be life threatening.

If ingested, symptoms of overdose include gastritis, nausea, vomiting, epigastric discomfort and diarrhoea.

Treatment consists of symptomatic measures only.

Maintain adequate hydration if vomiting or diarrhoea becomes extensive.

Milk or antacids may be used to allay gastritis in the event of oral ingestion.

EFFECTS ON ABILITY TO DRIVE & USE MACHINE

Unlikely to impair a patient's ability to drive or use machinery.

INSTRUCTIONS FOR USE

For external use only.

STORAGE CONDITIONS

Keep container tightly closed in a dry place, below 30°C; Protect from light and freezing.

SHELF LIFE

Product should not be used beyond the expiry date imprinted on the product packaging

PACKING/PACK SIZE

Aluminium tube of 30gm
