Colors shown on this proof are to indicate correct colour requirements.

DUOBION

DESCRIPTION

A 6.5mm diameter, yellow, round convex, scored tablet, marked 'UP'.
Each Duobion tablet contains:

Thiamine HCL (B1)	5.0 mg
Riboflavine (B2)	1.5 mg
Pyridoxine HCL (B6)	1.0 mg
Cyanocobalamine (B12)	3 mcg
Nicotinamide	10 mg

Route of administration: Oral

INDICATIONS

Prophylaxis and treatment of vitamin B deficiency

PHARMACODYNAMICS

Vitamins are esential to life. They perform a host of bodybuilding functions integral to life and health. Daily intake of the various vitamins in the right amounts is therefore vital for everyone. Vitamins exercise catalytic functions that facilitate the synthesis and degradation of the principle nutrients, thereby controlling metabolism. Vitamin B1 promotes proper metabolism of sugars and fatty acids to get energy for correct functioning of the heart and nervous system. Vitamin B2 helps proper use of carbohydrates, proteins and fats in body cells and is necessary for healthy skin. Vitamin B6 aids in the formation of red blood cells and correct functioning of the nervous system. Vitamin B12 also assists in the formation of red blood cells, thus helping to prevent certain forms of anaemia. Nicotinamide aids the nervous system by promoting energy-producing reactions in cells.

PHARMACOKINETICS

The B complex vitamins are all water soluble vitamins. They are readily absorbed from the G.I.T. Any excess beyond daily needs is excreted as unchanged drug and metabolites in urine.

DOSAGE

1 to 2 tablets three times daily or as directed by physician.

STORAGE CONDITIONS

Keep container tightly closed.
Store in a dry place below 30°C.
Protect from light.
Keep out of reach of children.
Jauhi daripada kanak-kanak.
Shelf life: Please refer to outer package.

PRESENTATION

Bottle pack: 30's, 60's, 100's and 10x100's
Blister pack: 100x10's and 10x10's
Not all pack size are available locally
