

Title: Calazite Lotion - PI Date: 07 Apr 2025

Calazite Lotion

Active Ingredients:

Calamine 15%w/v
Zinc Oxide 5%w/v
Preservative: Benzyl Alcohol 1%v/v

Presentations:

Bottles of 60ml, 90ml and 120ml.

Product Descriptions:

A pinky coloured water-based lotion with a pleasant floral scent.

Pharmacology:

Calamine is used to treat pruritis (itching) by producing a counter-irritant effect when applied on the skin. It produces a cooling effect and helps to divert your body's attention away from the itching and giving the relief from skin irritations. Calamine and Zinc Oxide also has a mild astringent effect with soothing and protective properties act to dry up oozing and weeping caused by skin conditions.

Indications:

A soothing and protecting lotion for the relief of skin irritations due to insect bites, prickly heat, sunburn, cosmetic, nappy rash and other minor skin irritations.

Direction of Use: SHAKE WELL BEFORE USE.

Calazite Lotion is suitable for adults, the elderly and children.

1. Apply the lotion onto the affected area of the skin.
2. Allow the lotion to dry on the skin.
3. Apply the lotion up to 3 to 4 times a day when needed.

Extremes of temperature, wearing of tight fitting nappies or non-breathable clothing such as polyester or nylon can make itching worse.

Contraindications:

Do not use if you are allergic to Calamine, Zinc Oxide, Benzyl Alcohol or the other ingredients in the lotion.

Precautions:

FOR EXTERNAL USE ONLY. AVOID IN CONTACT WITH EYES, NOSE AND MOUTH. NOT TO BE TAKEN.
If symptoms persist, please consult a doctor.

Use in Pregnancy and Lactation:

Birth defects or other problems in humans have not been documented.
Problems in breast-feeding babies has not been reported.
