

PACKAGE INSERT

Composition:
Calamine 15% w/v
Zinc oxide 5% w/v

Product Description: Cloudy and pink suspension.

Indication:

It is indicated for the treatment of insect bites, sunburn, pruritus and other minor skin irritations.

Recommended Dosage:

Sufficient lotion should be applied to cover the affected areas twice daily or as directed by the physician.

Route of Administration: Topical

Contraindications:

It is contraindicated in patients who have shown hypersensitivity to any of its ingredients.

Warnings and Precautions:

For external use only. Avoid getting the lotion into the eyes. It may be irritation to the eyes.
It should not be applied where free drainage is necessary or to inflamed or abraded skin.

Interactions with Other Medicaments:

No known drug interaction.

Side Effects:

No adverse effects arising from the topical application of calamine or zinc oxide have been reported. If any, it would probably be sensitization reactions.

Symptoms and Treatment of Overdose:

Overdosage arising from the topical application is extremely remote.

As the product is inert and very poorly absorbed, effects, if any arising from accidental overdosage (orally) is unlikely to be life threatening.

General measures to hasten the elimination of the lotion from the gastrointestinal system should be adopted. Other supportive measures providing symptomatic relief are also recommended.

Storage Conditions: Store at or below 30°C.

Pack Size: A bottle of 60ml and 200ml.

Pack Size (export only): A bottle of 3.3 litres.

Shelf-life: 2 years.
