

SURBEX®
CALCIUM-D₃
CAPSULES

Description

16 minim oblong opaque white soft gelatin capsule containing an ivory suspension that is tasteless and odourless.

Each SURBEX® CALCIUM-D₃ CAPSULES provides

Calcium..... 350 mg
(as Calcium Carbonate 875mg)
Vitamin D₃ 500 I.U.
(Cholecalciferol 12.5mcg)

Indication

As a health supplement.

Dosage and Administration

Usual adult dosage is 1 to 2 capsules to be taken once daily before meal or as directed by doctor or pharmacist.

Side Effects

SURBEX® CALCIUM-D₃ CAPSULES is generally well tolerated. At large amount, calcium supplements can lead to anorexia, nausea, vomiting and constipation, which are symptoms of hypercalcemia.

Interaction with Other Medicaments

Calcium carbonate may interfere with the absorption of concomitantly administered tetracycline preparations. For this reason, tetracycline preparations should be administered at least two hours before or four to six hours after oral intake of calcium.

Thiazide diuretics reduce the urinary excretion of calcium. Due to increased risk of hypercalcaemia, serum calcium should be regularly monitored during concomitant use of thiazide diuretics. Hypercalcaemia must be avoided in digitalised patients.

Contraindications

SURBEX® CALCIUM-D₃ CAPSULES is contraindicated in patients with hypercalcemia, severe renal failure, renal stone disease, sarcoidosis and hyperparathyroidism.

Package

Blister: 5's, 10's, 30's, and 60's.
Bottle: 30's, and 60's.
Not all pack sizes are marketed.

Keep out of reach of children.

Jauhi daripada kanak-kanak.
