

(For topical use only)

NAME AND STRENGTH OF ACTIVE SUBSTANCE

Each 100 mL contains 2 g of ketoconazole
(Solvent: 0.3%w/w Ethyl alcohol)

PRODUCT DESCRIPTION

A viscous, wine-red coloured liquid.

PHARMACODYNAMICS

Pharmacotherapeutic group: Imidazole and triazole derivatives.

Ketoconazole is an imidazole-dioxolane antimycotic, active against yeasts, including *Malassezia* (previously called *Pityrosporum*) and dermatophytes. Its broad spectrum of activity is already well known.

PHARMACOKINETICS

Plasma concentrations of ketoconazole were not detectable following topical administration of ketoconazole shampoo 2% on the scalp. Plasma levels were detected after topical administration of ketoconazole shampoo 2% on the whole body.

INDICATIONS

Reduction of scaling due to dandruff, seborrhoeic dermatitis and pityriasis versicolor.

DOSAGE AND ADMINISTRATION

The affected area of the skin or hair should be washed with KETAZON SHAMPOO, which should be left on the skin for 3 to 5 minutes before rinsing.

For treatment of:

Seborrhoeic dermatitis and dandruff:

Apply twice weekly for 2 to 4 weeks.

Pityriasis versicolor: Apply once daily for up to 5 days.

For prophylaxis:

Once every 1 or 2 weeks as needs to maintain control.

CONTRAINDICATIONS

Hypersensitivity to ketoconazole, propylene glycol and any other ingredients.

WARNINGS AND PRECAUTIONS

- In patients who have been on prolonged treatment with topical corticosteroids, it is recommended that the steroid therapy be gradually withdrawn over a period of 2 to 3 weeks, while using ketoconazole shampoo 2% to prevent any potential rebound effect.
- Avoid contact with the eyes. If the shampoo should get into the eyes, they should be bathed with water.

INTERACTIONS

No interaction studies have been performed.

PREGNANCY AND LACTATION

There are no adequate and well-controlled studies in pregnant or lactating women.

Plasma concentrations of ketoconazole were not detectable following topical administration of ketoconazole shampoo 2% on the scalp of non-pregnant humans. Plasma levels were detected after topical administration of ketoconazole shampoo 2% on the whole body. There are no known risks associated with the use of ketoconazole shampoo 2% in pregnancy or lactation.

EFFECTS ON ABILITY TO DRIVE AND USE MACHINE

Not relevant.

UNDESIRABLE EFFECTS

Summary of Safety Profile

The adverse reactions tabulated below are classified according to frequency and system organ, from either clinical trial or post marketing experiences.

System Organ	Frequency	Adverse Reactions
Immune system disorders	Rare	: Hypersensitivity
Nervous system disorders	Rare	: Dysgeusia
Infection and Infestations	Uncommon	: Folliculitis
Eye disorders	Uncommon	: Increased lacrimation
	Rare	: Eye irritation
Skin and subcutaneous tissue disorders	Uncommon	: Skin burning sensation, alopecia, dry skin, rash, hair texture abnormal
	Rare	: Skin exfoliation, dermatitis contact, skin disorder, acne
	Not known	: Angioedema, urticaria, hair colour changes
General disorders and administration site conditions	Uncommon	: Application site reaction/ pruritus/ irritation/ erythema
	Rare	: Application site hypersensitivity/ pustules

OVERDOSE AND TREATMENT

In the event of accidental ingestion, supportive and symptomatic measures should be carried out. In order to avoid aspiration, neither emesis nor gastric lavage should be instigated.

STORAGE CONDITIONS

Store below 30°C, protect from light and heat.

SHELF LIFE

Refer to unit box for shelf-life.

DOSAGE FORMS AND PACKAGING

AVAILABLE

Available in 100 mL per plastic bottle.

DATE OF REVISION OF PI

Date of revision : 11/06/2025

Manufacturer:-

SIAM BHEASACH CO., LTD.

123 Soi Chokechairuammitr, Vibhavadi-Rangsit Road, Chomphon, Chatuchak, Bangkok 10900 and 9 Soi Chokechairuammitr 3, Vibhavadi-Rangsit Road, Dindang, Dindang, Bangkok 10400, Thailand.
