

CHAMPS D-Worms 200mg Chocolate Flavour Chewable Tablet

CHAMPS D-Worms kills six types of worms with a single dose!

Formulated as delicious chocolate-taste chewable tablets, **CHAMPS** D-Worms kills Roundworm, Whipworm, Pinworm, Threadworm, Hookworm and Tapeworm, six types of worms commonly found in the body. This yummy tablet is definitely the deworming medication of choice for both children and adults.

PRODUCT DESCRIPTION

A 16mm diameter, round, convex, chocolate flavoured, marked with 'CHAMPS' on one side, brown tablet.

PHARMACODYNAMICS

Albendazole has larvicidal, ovcidal and vermicial properties. It inhibits tubulin polymerization, thus depletes the energy level, immobilizes and then kills the susceptible helminth.

PHARMACOKINETICS

Albendazole is poorly absorbed from the gastro intestinal tract, but rapidly undergoes extensive first-pass metabolism. The principle metabolite albendazole sulphoxide has anthelmintic activity and a plasma half-life of about 8.5 hours. It is excreted in the urine together with other metabolites including albendazole sulphone and the 2-amino sulphoxide and 2-amino sulphone.

INDICATION

Treatment of single or mixed infestation of intestinal parasites including Roundworm, Whipworm, Pinworm, Threadworm, Hookworm and Tapeworm.

CONTENTS

Each **CHAMPS** D-Worms tablet contains 200mg Albendazole.

DOSAGE

For Roundworm, Whipworm, Pinworm or Hookworm infestation:

- Children 1 to 2 years of age:
Take 1 tablet as a single dose.
- Children above 2 years and adults:
Take 2 tablets as a single dose.

For Threadworm and Tapeworm infestation:

- Children 1 to 2 years of age:
Take 1 tablet daily for 3 consecutive days.
- Children above 2 years and adults:
Take 2 tablets daily for 3 consecutive days.

For mixed worm infestation:

Take 2 tablets twice daily for 3 consecutive days.
