

DYNA C 500 TABLET

MAL19970981XZ

DESCRIPTION:

TABLET

Colour : Orange
Shape : Round/Biconvex
Coating : Film-coated

EACH TABLET CONTAINS:

Ascorbic Acid 500 mg

PHARMACODYNAMICS:

Ascorbic Acid is used in the synthesis of collagen and intercellular material involved in the conversion of Folic Acid, in electron transport process, in the healing of wounds and the metabolism of tyrosine. It is also useful in the absorption of the Iron from the gastro-intestinal tract. Vitamin C is also useful in the treatment of idiopathic methaemoglobinaemia.

PHARMACOKINETICS:

Ascorbic Acid is readily absorbed from the gastrointestinal tract and is widely distributed in the body tissues. Concentration is higher in leucocytes and platelets than in erythrocytes. Ascorbic Acid in excess of body's needs is rapidly eliminated in urine and its elimination is usually accompanied by diuresis.

INDICATIONS:

It is indicated for prevention and treatment of Ascorbic Acid (Vitamin C) deficiency states.

RECOMMENDED DOSAGE:

Adult: 1 to 3 tablets a day or as directed by physician/pharmacist.

CONTRAINDICATIONS:

Ascorbic Acid should be given with care to patients with hyperoxaluria. Tolerance may be induced in patients taking high doses.

WARNING/PRECAUTIONS:

Ascorbic Acid should be given with care to patients with hyperoxaluria. Tolerance may be induced in patients taking high doses.

SIDE EFFECTS/ADVERSE REACTIONS:

Ascorbic Acid is usually well tolerated. Large doses may cause diarrhoea and the formation of renal calcium oxalate calculi. Doses of 600 mg or more daily have a diuretic action.

SYMPTOMS AND TREATMENT OF OVERDOSE:

Overdosage of Ascorbic Acid is usually followed by diuresis and diarrhoea. Medication should be discontinued.

PACKING/PACK SIZE(S):

Plastic bottles of 90's and 100's.

KEEP OUT OF REACH OF CHILDREN

JAUHI UBAT DARIPADA KANAK-KANAK
