
OXIDANE WATER FOR INJECTION

DESCRIPTION: Clear, colourless, odourless solution.

COMPOSITION: Each glass ampoule contains: 10ml of sterile water for injection BP

INDICATIONS AND USAGE:

Water for injection is used as a solvent in preparations intended for parenteral administration and in other sterile products.

PRECAUTIONS and WARNINGS:

There is adequate evidence to show that after sterilization, solutions containing pyrogens can retain sufficient activity to cause the characteristic febrile reactions following injections.

It is therefore important that solution for injections should be prepared with ingredients free from pyrogen.

STORAGE CONDITIONS:

Store below 30°C. Do not use if solution contains particles, growth or turbidity.

Keep out of reach of children. *Jauhkan daripada kanak-kanak.*

PACK SIZE:

10 x 10ml and 25 x 10ml ampoules.

SHELF LIFE: Please refer to outer package.
