

ANTIFLAM RUB

Description: White colour cream

Content

Each gram cream contains

Methyl salicylate 283mg

Chlorocresol 0.1%w/w

Indications

For temporary relief of pain of joints and muscle associated with arthritis, lumbago, fibrositis, sprains and strains.

Adverse Effects

Methyl salicylate may cause symptoms of headache, dizziness, tinnitus, hearing difficulty, blurred vision, lassitude, mental confusion, drowsiness, sweating, thirst, hyperventilation, nausea, vomiting and sometimes diarrhoea.

Precautions

It should be used with caution in individuals who are sensitive to acetyl-salicylic acid because methyl salicylate is absorbed percutaneously. This product contains methyl salicylate and when applied or rub on to the skin, can be absorbed through the skin into the blood. For patients taking warfarin, excessive application on to the skin for muscle or joint pains may increase the chances of bleeding.

Dosage and Administration

Apply to the affected area 2 - 3 times a day.

Storage : Keep container tightly closed. Store in a cool, dry place, below 30C. Protect from light. Keep out of reach of children.

Presentation/Packing : 25gm / tube

Shelf-Life : 3 years
