

BIOTASE® CHEWABLE TABLET

Ingredient(s):

Each tablet contains:

Biodiastase #1000	30mg
Lipase Ap6	5mg
Newlase	10mg

Action(s):

1. Biotase contains Biodiastase 1000, Lipase Ap6 and Newlase, which rapidly becomes available for absorption as the tablet disintegrates in the stomach. Enzymes are promptly released from the tablet and are bioavailable for digestion of food in the stomach and intestines.
2. Biodiastase 1000 is a potent enzymatic drug containing Amylase (which converts starch to maltose), Protease (break down larger protein fractions into peptides), Lipase (splits fats into fatty acids and glycerol), Cellulase (converts carbohydrates into dextrans and short chain sugars), Maltase, Pectinase, Inulase, Lecitase, Phosphatase, Sulfatase, etc.
3. Lipase Ap6 contains the potent lipase activity. It provides highest enzymatic activity, plus the protective action of the widest pH range, thus it is effective throughout its pH range. Lipase Ap6 is more stable in higher temperatures than other enzymes. Lipase Ap6 in conjunction with Biodiastase 1000 provides better enzymatic activity in hydrolysis of fats to fatty acids and glycerol.
4. Newlase, a strong acid enzyme, contains protease, which converts proteins into peptoses and derived substances. Newlase also has lipase, amylase, cellulase-like action. In conjunction with Biodiastase 1000, Newlase promotes an effective action in the conversion of proteins into its metabolic products.
5. Biotase provides a balanced combination of natural proteolytic, amylolytic, cellulolytic and lipolytic enzymes to enhance digestion of proteins, starch and fat in the GIT.

Indication(s):

As an adjuvant in the treatment of indigestion as well as digestive disorder manifested by bloating, belching, flatulence, abdominal discomfort or feeling of fullness.

Dosage and Administration:

Adult and children > 12 years of age: 2-3 tablets to be chewed three times daily after meal.

Precaution(s)/ Warning(s):

Should hypersensitivity occur, discontinue medication and treat symptomatically. There were no adequate and well-controlled studies in pregnant women. It should only be used in pregnancy if the potential benefit justifies the potential risk to the fetus.

Drug Interaction:

None has been mentioned.

Side Effect(s) / Adverse Reaction(s):

High doses may cause nausea, abdominal cramps, and / or diarrhea in certain patients.

Contraindication(s):

Biotase is contraindicated in patients known to be hypersensitive to the components of the product.

Shelf-Life:

3 years from the date of manufacture.

Symptoms and Treatment for Overdosage, and Antidote(s):

Excessive dosage may produce a laxative effect. Systemic toxicity does not occur.

Storage Condition(s):

Store at temperature below 30°C. Protect from light and moisture.

Packing(s):

A grayish brown color, plain round tablet.
Plastic bottle of 1000's (for export only).
Blister packing of 10's x 10 and 10's x 2.

BIOTASE® CHEWABLE TABLET

Bahan Aktif:

Setiap tablet mengandungi:

Biodiastase #1000	30mg
Lipase Ap6	5mg
Newlase	10mg

Indikasi:

Sebagai adjuvan bagi rawatan senak termasuk gejala-gejala seperti sendawa, sebu perut dan kembung abdomen.

Dos:

Dewasa dan kanak-kanak berumur > 12 tahun: 2-3 tablet dikunyah tiga kali sehari selepas makan.

妙化 咀嚼錠

成分:

每錠含:

Biodiastase #1000	30mg
Lipase Ap6	5mg
Newlase	10mg

適應症:

附屬治療腸胃疾病所引起的氣脹，打嗝與胃腸不舒適的感覺。

用法、用量:

成人與12歲以上小孩：每次2-3錠。每日三次，飯後服用。

Manufacturer and Product Registration Holder:
Y.S.P. INDUSTRIES (M) SDN. BHD. (199001001034)
Lot 3, 5, 7, 12 & 14, Jalan P/7, Section 13,
Kawasan Perindustrian Bandar Baru Bangi,
