

Orregel

Relief for Teething Discomfort

DESCRIPTION:

Translucent gel with blackcurrant flavour. Contains Choline Salicylate 8.7% w/w and Cetylpyridinium Chloride 0.1% w/w with Methyl Paraben 0.2% w/w and Propyl Paraben 0.1% w/w as preservatives. It is alcohol-free and contains no added sugar.

INDICATION:

Relieves pain and discomfort in infant teething, transient mouth ulcers, sore gums, palate, lips and denture pressure sore.

CONTRA-INDICATION:

Preparations containing aspirin should not be given to children under 12 years of age during treatment, to avoid any risk of excessive salicylate levels, as unwanted effects are those of salicylates. Not to be given to patients suffering from active peptic ulceration or known to be allergic to salicylates.

PRECAUTIONS:

Preparations containing salicylates may precipitate bronchospasm and induce attacks of asthma in susceptible individuals. Not to be used in infants under 4 months of age.

INSTRUCTION FOR USE:

Children (above 4 months of age): Wipe surface free from mucus before application. Using a clean finger, gently massage a small amount of the gel onto the sore area. This may be used not more than once every 3 hours to a maximum of 6 times a day.

SIDE EFFECTS:

There are no known side effects from Orregel. However, if you think the gel is causing the baby any problems, please consult your doctor or pharmacist.

STORAGE:

Keep the tube well closed. Protect from strong light. Store at temperature below 30°C. Do not use after the expiry date shown on the pack.

RECOMMENDED SHELF-LIFE: 3 years.

PACKING:

5g and 15g collapsible aluminium tubes.
