

Product Name: AMINOSTERIL N-HEPA 8%		Territory: EXP	Colour: ● BLACK ● DIE CUT	1. Draft 30.08. 2016 11.40 Uhr		Variable Data:	
Type of Packaging: PIL	Dosage: 250ml						
Material number:	2-D-Matrix Code M089128/03 EXP						
Pharma-Code (Laetus)	EAN Code:						
Dimension: 180 x 294 mm 1 PAGE	Font: Smallest Size: 9 Pt.	ARIAL					
Operator: Christian Nagy +43(0) 34 52 72266-22							

INSTRUCTIONS FOR USE - READ CAREFULLY!

Fresenius Kabi AB
SE-75174 Uppsala, Sweden

Aminosteril® N-Hepa 8%
For intravenous infusion

Composition

1000 ml contains:

L-Isoleucine	10.40 g
L-Leucine	13.09 g
L-Lysine monoacetate	9.71 g
= L-Lysine 6.88 g	
L-Methionine	1.10 g
Acetylcysteine	0.70 g
= L-Cysteine 0.52 g	
L-Phenylalanine	0.88 g
L-Threonine	4.40 g
L-Tryptophan	0.70 g
L-Valine	10.08 g
Arginine	10.72 g
L-Histidine	2.80 g
Aminoacetic acid	5.82 g
L-Alanine	4.64 g
L-Proline	5.73 g
L-Serine	2.24 g
Glacial acetic acid	4.42 g

Total nitrogen content 12.9 g/l

Indications

Parenteral amino acid supply in severe forms of hepatic failure (liver insufficiency) with and without encephalopathy.

Contraindications

Disturbance of amino acid metabolism, metabolic acidosis, fluid overload, hyponatremia, hypokalemia, renal insufficiency, decompensated cardiac insufficiency, shock, hypoxia.

Remark:

No specific studies have been performed to assess the safety of Aminosteril N-Hepa 8% in pregnancy and lactation.

Side effects

Remark:

Due to the special composition of this preparation, use in indications other than those recommended may result in amino acid imbalances and severe metabolic disorders.

Dosage and Application

For intravenous infusion.
1.0 to 1.25 ml/kg b.w./h.

Max. dosage:

1.5 g amino acids/kg b.w./day = 1300 ml/day at 70 kg b.w.

Remark:

Constant checking of serum electrolytes, fluid balance and acidbase balance is mandatory.

Length of Application

Aminosteril® N-Hepa 8% is used as long as required by therapy.

Interactions with other medicaments

Because of the increased risk of microbiological contamination and incompatibilities, amino acid solutions should not be mixed with other drugs. Should it become necessary to add other nutrients like carbohydrates, lipid emulsions, electrolytes, vitamins or trace elements to Aminosteril® N-Hepa 8% for complete nutrition, care should be given to hygienic admixing, good blending and, in particular, to compatibility.

Aminosteril® N-Hepa 8% should not be stored after the addition of other components.

Storage conditions

Do not store above 30°C

Do not freeze!

Precautions

Do not use Aminosteril® N-Hepa 8% after expiry date!

Do not use if the solution is cloudy or if the container is damaged.

Keep out of the reach of children.

Presentation

Available in 250 ml and 500 ml bottles packed in carton:
10 x 250 ml
10 x 500 ml
Not all pack sizes may be marketed.

Revised

Feb 2018
