

Itch-Soothe Topical Cream 10% w/w

NAME AND STRENGTH OF ACTIVE SUBSTANCE

Crotamiton 10%w/w

PRODUCT DESCRIPTION

A white opaque, non-greasy, non-perfumed cream with characteristic faint amine-like odour of Crotamiton.

Other ingredients: Propyl Paraben, Methyl Paraben, Carbopol 940, Glycerine, Cetearyl Alcohol & PEG-20 Stearate, Triethanolamine 99% and Purified Water

PHARMACODYNAMICS

Crotamiton has antipruritic actions that lasts for 6 to 10 hours. By relieving the itching, it prevents damage to the skin caused by scratching and thus minimizes the risks of secondary infection.

INDICATION

For the relief of itch due to mosquitoes and other insect bites.

RECOMMENDED DOSAGE

Apply to affected area when necessary.

ROUTE OF ADMINISTRATION

Topical

CONTRAINDICATIONS

Known hypersensitivity to Crotamiton or any component in the cream base.

WARNINGS AND PRECAUTIONS

Itch-Soothe Topical Cream should not be applied in the eyes or mouth because it may cause irritation. It should not be applied to acute inflamed skin or raw weeping surfaces until the acute inflammation has subsided. Examination should be made a week after the last treatment to confirm disinfection.

INTERACTIONS WITH OTHER MEDICAMENTS

Unknown

PREGNANCY AND LACTATION

Safety for use in pregnancy/lactation has not been established.

SIDE EFFECTS

Sensitivity to Crotamiton is rare but the drug may produce irritation in the presence of acute vesicular dermatitis.

SYMPTOMS AND TREATMENT OF OVERDOSE

There is no specific information on the effect of overtreatment with repeated topical application in humans. There is no specific antidote if taken orally. General measures to eliminate the drug and reduce absorption, combined with symptomatic treatment have been recommended

PACKING

20g collapsible aluminium tubes.

STORAGE

Keep container well closed. Store below 30°C. Protect from strong light. For external use only. Keep out of reach of children.

SHELF LIFE

2 years
