Product Description

White semisolid cream

Pharmacodynamics

The emulsifying ointment, in an aqueous mixture, produces a non-greasy cream which is used to protect skin against dirt and grease and has a detergent effect as skin cleanser.

Pharmacokinetics

Not applicable

Indications

- For topical application to the skin.
- As an emollient for the symptomatic relief of dry skin conditions.
- As a soap substitute for skin washing.

Recommended dosage

Apply accordingly to intended treatment area.

Contraindication

- It is contraindicated in patients who have shown hypersensitivity to any of its ingredients.
- Hypersensitivity to Chlorocresol; eczema
- Sodium lauryl sulfate may cause local skin reactions (e.g. stinging and contact dermatitis).

Warning and Precautions

It should not be used before phototherapy or in phototesting procedures.

Interaction with other medicaments

None

Statement on usage during Pregnancy and Lactation

The safety of Aqueous cream during pregnancy and lactation has not been established. Consult your doctor or pharmacist before use.

Adverse effect/undesirable effect

May cause local skin reactions, such as stinging, burning, itching, and redness, when it is used as a leave-on emollient.

Overdose and Treatment

Symptoms of accidental oral ingestion may include gastrointestinal symptoms, particularly diarrhea and should be treated symptomatically.

Incompatibilities

No known incompatibilities.
