
GermoSept Isopropyl Alcohol 75% Antiseptic Solution Hand Sanitizer

Name and Strength of Active Substances

Isopropyl Alcohol 75% v/v

Product Description

A clear solution.

Pharmacodynamics

Isopropyl alcohol is a bactericidal agent that acts by the denaturation of proteins. It is a rapidly bactericidal and a fast-acting broad-spectrum antiseptic, but is not considered persistent. At concentrations of 70% v/v, it is a much effective antibacterial preservative than ethanol (95%). The bactericidal effect of aqueous solutions increases steadily as the concentration approaches 100% v/v. However, isopropyl alcohol is ineffective against bacterial spores.

Pharmacokinetics

As for the pharmacokinetic properties, there is little absorption of isopropyl alcohol through intact skin. It is readily absorbed from the gastrointestinal tract and may be slowly absorbed through intact skin. Isopropyl alcohol is metabolized more slowly than ethanol, primarily to acetone. Metabolites and unchanged isopropyl alcohol are mainly excreted in the urine.

Indications

For hygienic and antiseptic purpose when soap and water are not available.

Recommended Dose

Place enough product on hands to cover all surfaces. Rub hands together until dry.

Route of Administration

Topical

Contraindications

Known hypersensitivity to isopropyl alcohol or any of its components.

Warning and Precautions

For external use only. Flammable. Keep away from heat or flame.

Supervise children under 6 years of age when using this product to avoid swallowing.

Do not use in children less than 2 months of age.

Do not use on open skin wounds.

When using this product keep out of eyes, ears, and mouth. In case of contact with eyes, rinse eyes thoroughly with water.

Stop use and ask a doctor if irritation or rash occurs. These may be signs of a serious condition.

Keep out of reach of children. If swallowed, get medical help right away.

Interactions with Other Medicaments

Not Applicable.

Pregnancy & Lactation

No special precautions need to be taken when used in pregnancy and lactation.

Adverse Effects / Undesirable Effects

Isopropyl alcohol may be irritant to the skin, eyes, and mucous membranes upon inhalation.

Effects on ability to drive and use machines

Not applicable.

Symptoms and Treatment of Overdose

Not applicable.

Instructions for Use

Not Applicable.

Storage Conditions

Store below 30°C. Keep container tightly closed.

Dosage Forms and Packaging Available

60ml and 500ml bottle
