
EmulsiDerm Emulsifying Ointment BP

Composition and Strength of Starting Materials:

Anionic Emulsifying Wax	30.0% w/w
White Soft Paraffin	50.0% w/w
Liquid Paraffin	20.0% w/w

Product Description

White translucent greasy ointment.

Pharmacodynamics

Massaged into the skin, the emollient white soft paraffin permits rehydration of dry skin by forming an occlusive barrier within the skin surface, thus reducing drying from evaporation of water that diffuses from the underlying areas. The ingredients of emulsifying wax have skin softening properties.

Pharmacokinetics

None applicable.

Indications

EmulsiDerm Emulsifying Ointment BP is an emollient, moisturising, and protective ointment for use in irritated, dry, or scaling skin conditions.

Recommended Dose

Cutaneous use.

Adults, children, and the elderly:

EmulsiDerm Emulsifying Ointment BP should be applied to the skin as often as required.

Route of Administration

Topical.

Contraindications

Hypersensitivity to any of the ingredients.

Warning and Precautions

If symptoms persist consult your doctor. In the rare event of a skin reaction, treatment should be discontinued.

Interactions with Other Medicaments

None known.

Pregnancy & Lactation

The safety of EmulsiDerm Emulsifying Ointment BP during pregnancy and lactation has not been established but is not considered to constitute a hazard during these periods.

Side Effects

Very rarely skin sensitivity reactions, including mild skin irritation, may occur.

Symptoms and Treatment of Overdose

No case of overdose has been reported. If large amounts are swallowed accidentally, this may cause anal seepage and irritation. Symptomatic treatment should be provided.

Effects on Ability to Drive and Use Machine

None stated.

Storage Condition

Store below 30°C. Protect from light. Keep container tightly closed.

Dosage form and packaging available

100gm, 250gm & 500gm are packed into cylindrical HDPE jar with translucent HDPE stopper and white HDPE screw cap.
