PRODUCT NAME

Vocasept® Throat Lozenges Honey Lemon
Vocasept® Throat Lozenges Menthol Eucalyptus

COMPOSITION

Each Lozenge contains: -
Amylmetacresol.....0.6 mg
2,4-Dichlorobenzyl Alcohol.....1.2 mg

PRODUCT DESCRIPTION

Vocasept Throat Lozenges Honey Lemon is available as a brownish yellow coloured, round, flat bevelled lozenges.
Vocasept Throat Lozenges Menthol Eucalyptus is available as a greenish blue coloured, round, flat bevelled lozenges.

PHARMACODYNAMICS

2,4-Dichlorobenzyl Alcohol and Amylmetacresol are antiseptics and possess antibacterial (bactericidal and bacteriostatic), antifungal and antiviral properties as demonstrated in vitro. When the two active agents are combined, a synergistic antibacterial action is observed leading to a reduced combined dose.

In-vitro studies demonstrated killing effects against some sore throat causing organisms such as *Streptococcus pyogenes*, *Staphylococcus aureus*, *Haemophilus influenza* and *Moraxella catarrhalis*, at 1 minute contact time. An overall reduction in the oral bacterial load was also seen in one in-vivo study.

In-vitro antiviral action against enveloped viruses including influenza A virus, para-influenza virus, respiratory syncytial virus, cytomegalovirus and coronavirus has also been observed for both amylmetacresol and dichlorobenzyl alcohol as well as the combination of the two after 1-2 minutes' contact.

INDICATION

For the symptomatic relief of mouth and throat infections.

RECOMMENDED DOSAGE

Adults and children (over 6 years old):
One lozenge to be dissolved slowly in the mouth every 2-3 hours up to a maximum of 12 lozenges in 24 hours.

ROUTE OF ADMINISTRATION

Oral

CONTRAINDICATION

Hypersensitivity to any of the ingredients.

WARNINGS AND PRECAUTIONS

Do not exceed the stated dose.
Not to be given to children under 6 years.
If symptoms persist, have not improved, or have worsened after 3 days, consult a doctor or health care professional.
Patients with rare hereditary problems of glucose-galactose malabsorption or sucrose-isomaltose insufficiency should not take this medicine.

INTERACTION WITH OTHER MEDICINAL PRODUCTS AND OTHER FORMS OF INTERACTION

No clinically significant interactions are known.

PREGNANCY AND LACTATION

Pregnancy
There are no or limited amount of data from the use of amylmetacresol and 2,4-Dichlorobenzyl Alcohol.
As with all medicines care should be taken when using this product in pregnancy and medical advice sought if necessary.
Breast-feeding
It is unknown whether 2,4-Dichlorobenzyl Alcohol, amylmetacresol or metabolites are excreted in human milk.
A risk to the newborns / infants cannot be excluded.

EFFECTS ON ABILITY TO DRIVE AND USE MACHINES

Vocasept Throat Lozenges has no or negligible influence on the ability to drive and the ability to operate machinery.

SIDE EFFECTS

Hypersensitivity reactions, glossodynia, and oral discomfort.
